2024 no award winner

2025 no award winner

2026 Hamilton Chapter - David Rasmussen
The History of HTS Engineering

NB/PEI Chapter - Ken Marin
Surviving Legionella

Halifax Chapter - Mike MacKenzie

Celebrating 60 Years of Leadership & Innovation: A Look Back at ASHRAE Halifax Chapter's Legacy

Initial information prepared George Menzies Regional Historian (Aug 2013)

Background Information

ASHRAE BOD approved a Chapter Gold Ribbon Award in January 1981 [motion 00-10-28-29-57] to reward chapter historians for their efforts in compiling information on significant events in the history of HVAC&R, with the initial emphasis on detailing a chapter's history since its chartering. This action was as a result of the upcoming 1994 100 anniversary of the incorporation of ASHRAE and its earlier sister societies and the need to capture historical information before it was lost.

The initial emphasis was on capturing chapter histories with each 5 years qualifying for a Gold Ribbon but other aspects would be included.

Selection Process

Prior to the annual CRC (Chapters Regional Conference), the Regional Historian and the Director and Regional Chair (DRC) select Gold Ribbon winners based on the presentations by the various chapter historians and the historical significance of each submission and original publication in journals, magazines, newsletters, and websites. There can be multiple winners annually. The award can be won by the same individual several times.

Presentation

The Gold Ribbon is awarded to the chapter for mounting on the chapter awards banner. The personalized certificate is awarded to the Chapter Historian. The award is presented by the Regional Historian at the annual CRC. The winners are to be recorded in the CRC Minutes. [This was done between 1981 and 1998 in Region 2] Records of Gold Ribbon awards shall be forwarded to the Society Historical Committee and records are kept by Headquarters.

Gold Ribbon Award for Chapter History

For winning a Gold Ribbon, chapter historians must complete a minimum of five years of history of their chapter. Thereafter the Gold Ribbon can be won for each additional minimum of five years of history of the chapter. The ultimate goal is eventually recording or completing the chapter's history back to its founding, as well as key events that led up to the formation of the chapter. Note In the period from about 2000, most chapters had their own websites and many had their chapter histories linked to the website. In 2010 it was recognized that many chapters would qualify every year for the Gold Ribbon by just keeping their chapter histories up to date. In July 2011, the requirement for updating to win the Gold Ribbon was that the last 3 years of the chapter history must be updated to win.

The chapter history needs to be in a narrative format, and must follow a chronological order. All presentations should be digitized for easy transfer and should be added to the chapter's website.

Gold Ribbon Award for Chapter History updates

Once the chapter history is complete, Gold Ribbon is awarded for keeping the chapter history up to date as well as adding historical information to previous years of completed chapter history as further information becomes available. A minimum of 3 year span of history update is required as of 2011 to win the Gold Ribbon [was 5 years previously].

Gold Ribbon for other historical presentations

Individuals can win a Gold Ribbon Award for the history of a person, a company, a system, an event, a piece of equipment, or an artifact or project particularly at a site with a heritage listing. Acquiring background information can be from within an organization, retired employees, libraries, museums, publications,

or company files. Source of information shall be disclosed in the presentation. The presentation shall include enough scope and detail to impress those evaluating the entry and should include a copy in electronic format if possible. The presentation shall include photographs and text identifying objects and people on the photographs. The presentation may include graphical material. All material shall be presented in historical perspective.

ASHRAE historical presentations and articles published in ASHRAE Journal and other technical magazines and journals shall be considered for Gold Ribbon Award. It is encouraged that all CRC historical presentations be published on Regional websites. Chapter history and historical presentations shall be published on Chapter website and newsletters.

Rules for Gold Ribbon Entries

Entries need to be submitted to the Regional Historian approximately 60 days prior to the CRC. The original and two copies, preferably in electronic format, must be submitted. The Regional Historian will submit his/her recommendations to the DRC approximately 45 days prior to the CRC. The Regional Historian must contact Society headquarters 30 days before the CRC in order for the certificates and ribbons to be sent prior to the CRC. The original presentations shall be returned after display at the CRC and the two copies will be forwarded to the Society library for archiving. A digital duplicate copy of the presentation shall be forwarded to Historical Committee specifically to Emily Sigman, Librarian/Information Specialist Ext: 1213 email: esigman@ashrae.org [as of Aug 2013]

Region Histories and Timelines:

In 2012, the society Historical Committee noted chapters that a complete regional history would include histories of student branches, CRC events, any Society meetings held within the region, and a list of Society Awards within the region. Send new entries and revisions of existing histories and timelines to Sarah Foster, at email: sfoster@ashrae.org [as of 2013]
