

THE MILTON GARLAND ICE MAN AWARD

[no longer awarded]

This award was created in 1989 to encourage excellence in refrigeration activities and promote interest in refrigeration at the chapter level. The Regional V-C for Region 2 selected the winner based on the number of chapter programs and tours a chapter had during the year as well as other chapter activities to improve awareness of the "R" in ASHRAE. The award was last awarded in 2001.

At the June 2000 ASHRAE Annual General Meeting of the Society, the Refrigeration Committee was absorbed into TEGA Committee – the Society Technical Energy and Government Affairs Committee, hence the Iceman Award ended in Region 2 as a stand alone award. All aspects of a chapter program was now included in the evaluation of the winner of the best chapter chair – refer to Allen Hanley TEGA award. The emphasis on refrigeration activities is a key component in determining what chapter wins the award.
